

VAHTS TGS DNA BD Adapters Set 1 for ONT

TA20101

Version 24.1

Product Description

VAHTS TGS DNA BD Adapters Set 1 for ONT is a specialized kit for library preparation based on the Nanopore sequencing platform, which is applicable to prepare multi-sample DNA libraries. Set 1 includes 24 different Barcodes from Barcode 01 to Barcode 24. All the reagents provided in the kit have undergone rigorous quality control and functional testing to ensure the optimal stability and repeatability of library preparation.

Components

| Components | TA20101-01 (192 rxns) |
|--|--------------------------|
| VAHTS TGS DNA Adapters for ONT (Barcode 01 - 24) | 20 μ l each |

Storage

Store at -30 ~ -15°C and ship at \leq 0°C.

Applications

VAHTS TGS DNA BD Adapters Set 1 for ONT is a specialized kit for library preparation based on the Nanopore sequencing platform, compatible with genomic DNA from various sample types: animals, plants, microorganism, etc. It is applicable to prepare multi-sample DNA libraries for the Nanopore sequencing platform.

Notes

1. Don't premix Barcode and Ligase to prevent Barcode self-ligation.
2. Don't store the kit above room temperature which may result in decreasing ligation efficiency.

For Research Use Only. Not for use in diagnostic procedures.
